Thursday was a day of royal joility in Camp

Some idea of the many who follow up a daily dip in the brine may be formed when I say that to day three were at least a thousand people clad in bine bathing suits.

The regular ball programme was then proceeded with to the music of Hassler's cylebrated or-chestra. Of the sixteen numbers embraced in the programme, the following geme deserve especial mention: "Opening march, Welcome, Colonel W. G. It was a late hour when the festivities closed, and the boys returned to camp to fight mosquitoes and its on to the mosaning of the waves.

The funeral of the late Frank Hagerly, sudden death has been chronicled in THE REPUB-LICAN, took place yesterday afternoon at four o'clock from the residence of his brother, Mr. Dave Hagerty, 451 Louisiana avenue. The remains were encased in a handsome walnut casket, covered with black cloth and velvet, with sliver extension handles, and a sliver plate bearing the name of the decement, his age (30 years), and the date of his death. The coffin was nearly hidden from view by the elaborate floral ornaments, the wealth of rare flowers and the richness of the designs being especially noticeable. The religious ceremonies were conduced at St. Patrice's Church by the Rev. Father Walter. The actines was completely packed, not an inch of standing room being anywhere visible. The service was very impressive, and Father Walter's discourse, half a marked and striking effect on his hearers. It was very different from the ordinary run of foneral discourses, insumuon as it was not an eulogium, but a plain, straightforward, discourse, with a deep current of under. hought, that caused many a man present to pause and reflect. The internant took place at Mount Oliver, the pail-bearers being Messes, John Panner, J. Milton Jones, Edward France, George Joyce, Washington Nailor, and Ed Moore. The internal arrangements were in charge of Mr. Redard Harvey, and carried out in his usual admirable style.

Negro Conspiracy. The Mobile Register of Monday and Tuesday last is at hand, each issue containing a report of the so-called "diabolical scheme" of the negroes of Choctaw County to massacre the whites. The paper has no word of editorial comment upon this remarkable piece of news, and the only authority for the report is anonymous, a letter from "a trustworthy gentleman of Choctaw County."
When, if ever, the Register sees fit to disclose the

When, if ever, the Register sees fit to disclose the name of its correspondent the odds are that he will be found to be a Benoeratic politician who had a hand in the lynching of "Jack Turner," the alloged implement of the alloged conspiracy. There is no reason for believing that any such assurd conspiracy existed among the colored people, the probabilities are allogether against it, and no proof sigiven to austain the charge. But on the other hand, knowing the ways of the Southern Democratin places where the negro vote is in the majority, there is every reason for believing that the conspiracy business was deliberately cooked up for the purpose of inaugurating a reign of terror, which would suffice to keep the negroes from the polis. And yet, considering the way in which tail of box stuffing and faire counting have been reduced to a science in Alabama, this revival of the buildoring business seems to be an unnecessary crucity.—Hartford Convent. Eating Lemons.
A good deal has been said through the papers about the healthfulness of lemons. The latest advice how to use them so they iwill do the most good runs as follows: Most people know the ben-efit of lemonade before breakfast, but few know

how it is more than doubled by taking another at night also. The way to get the better of a billous system without blue pills or quinine is to take the juice of sue, two, or three lemons, as the appetite crave, in as much les water as makes it pleasant to drink, without sugar, before going to bed. In the morning on rising, or at least half an hour tefore break ist, take the juice of one lemon in a goblet of water. This will clear the gystem of humors and bile, with efficacy, without any of the weakening effects of calomet or congress water. People should not irritate the stomach by eating ie cons clear; the powerful acid of the juice, which is almost cerrodye, infailibly produces inflammation af crawhile, but properly diluted, so that it does not burn or draw the threat, it does its full medicinal work without harm, and when the stomach is clear of food has atomiant opportunity to work the system thoroughly. how it is more than doubled by taking another at

Ments May Be Cheaper. The high price of meat for some months past has in a measure demoralized the housekeepers Persons of small means found it impossible to procure beef or mutton and retain enough money to purchase the other necessaries of life, and prudent wives visit their butchers as seldem as per le. But yesterday the wholesale butchers were selling beef by the calcass at tross even to the cerns a pound, whereas when the meat was at its highest it was sold for fourier counts a pound. Of course these figures give no litea of what housekeepers poid for beef by the plece. They could not place it on their tables at less than from twe-ty-two to twenty-two cents per pound, and mutton, pork, and ve I were almost as expensive. The reduction has not yet been felt by private purcha-ers, but in a few days it must necessarily reach them, beef, so far, is the only meat reduced. The market is rapidly becoming stocked with cattle from Texas, Colorado, and the points. purchase the other necessaries of life, and pruden

Maryland Politics. In some of the precince the delegates were instructed to vote for Mr. Hutchinson has, last, and all the time. The only two republicans mentoned in the sixth district arz Mr. Hutchinson and Mr. Urner, the present member. The latter, it is undicated, prefers to go upon the beach, and will dentities receive the nomination for ludge. In that case he will throw his entire influence for 5 r. Hutchinson, who will receive the nomination and be elected, as the district is surely Republican.
